# THE TRUCKS YOU TRUST FOR THE WORK YOU DO

Today, more than ever, you need a truck that's dependable and durable ... efficient and capable ... designed for minimal downtime and maximum productivity ... a truck you can rely on to get the job done.

SUZU

Whether you manage a large fleet or are a single owner-operator, the 2024 Isuzu F-Series is your best choice for your next truck. Here's why.

*A Wide Range of Choices:* What will it be? Class 6 FTR or the Class 7 FVR ... wheelbases from 152 to 248 inches ... GVWRs at 25,950 or 33,000 pounds? The choice is yours.

Durability: Every Isuzu F-Series truck has a Cummins B6.7 diesel engine.

**Productivity:** The low-cab-forward design of Isuzu trucks provides more cargo space within a given overall length plus best-in-class maneuverability. That means drivers can reach tighter places in less time. And the Isuzu Hexapod cab maximizes interior space and optimizes comfort.

*Low Cost of Ownership:* Isuzu's available Priority Service Maintenance Program allows you to pay in advance for your maintenance needs—allowing you to budget your transportation costs up front.

*Peace of Mind:* Isuzu trucks are backed with warranties that demonstrate our belief in our products.

Isuzu has been the best-selling low-cab-forward truck in the combined US and Canadian markets. We invite you to find out for yourself what has inspired such loyalty—and why Isuzu trucks will be the trucks you trust for the work you do.

## LOW CAB FORWARD **ADVANTAGES**

The Isuzu LCF design has become legendary for providing outstanding visibility and maneuverability. These two advantages alone make Isuzu trucks easier and safer to drive. Add in our multiple wheelbases that give you a choice of body sizes up to 30 feet in length and you have more choices, more driver benefits, and less hassle when navigating the road ahead.

### **EFFICIENT OVERALL LENGTH**

Conventional cabs have to be longer in order to accommodate their forward-mounted engines. In contrast, Isuzu cabs are positioned above the engine. This efficient design gives LCF owners more cab-to-axle (CA) space compared to conventional cabs with equivalent wheelbases, allowing F-Series trucks with:

- Bodies up to four feet longer on the same wheelbase to accommodate more cargo.
- Body sizes up to 30 feet in length. This versatility gives you more choices when upfitting your next work truck.
- More maneuverability. When equal body sizes are mounted on a conventional cab truck and a low cab forward truck, the LCF truck has a shorter overall vehicle length providing more maneuverability even with the equal cargo loads.

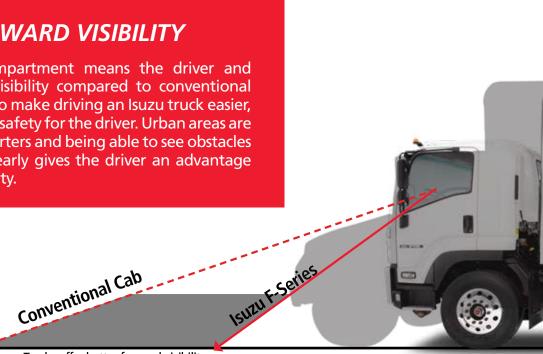

### **GREATER PRODUCTIVITY**

Fewer three-point turns save time, and time is money. Isuzu trucks have classleading turning radiuses which reduce the amount of three-point turns on any given route. This allows drivers to get in and out of more places more quickly, so they can get more done in a day.

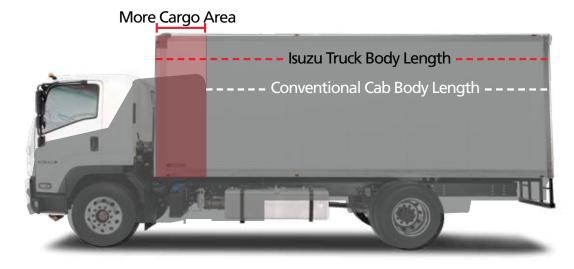

Isuzu trucks' best-in-class turning radius is achieved with the LCF cab design and the inner wheel cut.

### **INCREASED FORWARD VISIBILITY**

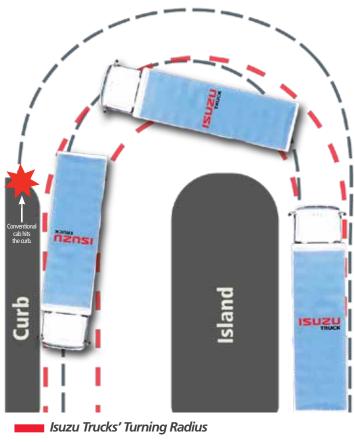

No forward engine compartment means the driver and passengers have more visibility compared to conventional cabs. This not only helps to make driving an Isuzu truck easier, but also helps to enhance safety for the driver. Urban areas are known for their tight guarters and being able to see obstacles and pedestrians more clearly gives the driver an advantage when navigating in the city.

Isuzu Trucks offer better forward visibility

Turning Radius of Conventional Cab Trucks

# THE POWER OF TEANVORK

Isuzu Motors Limited, our parent company, has developed strategic alliances with other companies to make sure its products meet and exceed the needs of its customers. There is no greater evidence of the benefits of this inclusive strategy than the line of 2024 Isuzu F-Series trucks.

### **CUMMINS B6.7**

Isuzu F-Series trucks are powered by the Cummins B6.7, the most popular engine ever built by Cummins. Over a span of 40 years of development and improvement, well over 12 million Cummins B-series engines have been sold. This historic accomplishment is a testament to the engine's technological advances and durability in the mediumduty segment.

This 6.7-liter turbocharged inline 6-cylinder diesel engine puts out 260 horsepower and 660 lb.-ft. of torque through a gearbox provided by another valued Isuzu partner, an Allison 2000-series RDS automatic transmission. This combination makes for a seamless transfer of power from the engine to the asphalt. The powerful engine and smooth shifting six-speed transmission bolster the driving experience by easily moving heavier payloads through urban environments and over the road.

### THE CHOICES ARE YOURS

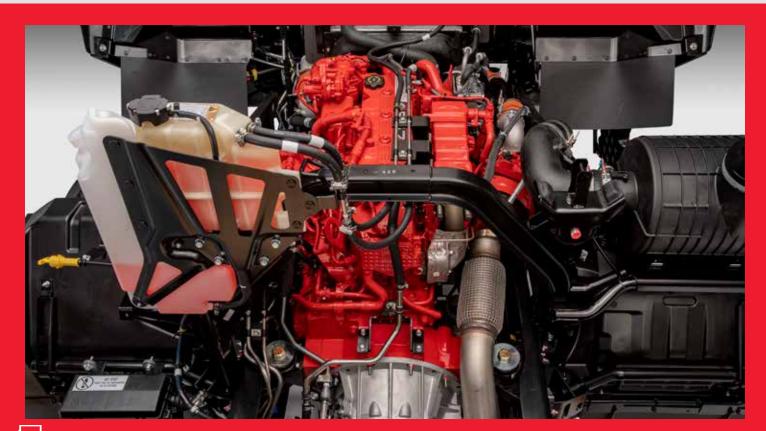

Available in both Class 6 and 7, Isuzu F-Series trucks' low-cab-forward design gives owners and drivers the maneuverability, visibility, power and payload to move their cargo with ease.

How much truck do you need?

- GVWR) and Class 7 FVR (33,000 lbs. GVWR)
- length
- 50- or 100-gallon fuel tank, based on wheelbase
- Optional air suspension and low-pro tires

As with all Isuzu low cab forward trucks, F-Series models feature superb maneuverability, visibility, and comfort. Add in the rugged Isuzu chassis, driver-friendly Hexapod cab, the Cummins/Allison powertrain and Isuzu's long-standing reputation for a low total cost of ownership and it becomes clear. An F-Series truck isn't just a great choice—it's the right choice.

• Three models—the Class 6 FTR (25,950 lbs. GVWR), Class 6 FVR Derate (25,950 lbs. Eight wheelbases, from 152 to 248 inches, accommodating bodies from 14 to 30 feet in

# **F-SERIES HIGHLIGHTS**

#### **LED LIGHTS**

LED headlamps and daytime running lights improve safety and styling. With brighter illumination, drivers have better visibility in nighttime

conditions and trucks are more easily visible to pedestrians and oncoming traffic.

**ENGINE** The B6.7 is a 6-cylinder diesel engine that generates 260 horsepower and 660 lb.-ft. of torque. This power and torque

**CUMMINS B6.7** 

combination easily moves heavier payloads through urban environments and on the highway.

#### **EXHAUST**

The Cummins Single Module After-Treatment has a linear design to help keep the frame rails clean. It incorporates the diesel particulate filter (DPF), selective catalyst reduction (SCR), exhaust cooler and electronic exhaust restriction into a compact single-piece unit.

#### **ENHANCED INTERIOR**

The F-Series trucks have dual-colored seats and a two-tone gray interior design that create a

comfortable cabin for passengers.

ALLISON<sup>®</sup> RDS TRANSMISSION The Allison Rugged Duty Series<sup>™</sup> transmission was built for the mediumduty market. Its proven durability and reliability provide

greater uptime with a lower cost of operation.

#### **FUEL TANKS**

The Isuzu F-Series offers a 50-gallon or a 100-gallon fuel tank based on wheelbase. This gives customers the option to increase their range and reduce fuel stops.

#### **AIR SUSPENSION (OPTIONAL)**

F-Series trucks are available with optional air suspension. The engine mounted air compressor puts out 17 CFM to quickly fill the air tanks and fill the suspension's air bags. This option is popular for customers hauling fragile cargo or who need to lower the chassis height for loading and unloading.

#### WHEELS / TIRES

Isuzu F-Series trucks are equipped with standard 11R22.5 tires on steel wheels. Customers can opt for aluminum wheels (shown) and, on the Class 6 FTR, choose the optional low-pro tires that lower the chassis for special applications like rollback bodies.

\*The Cummins engine is warranted separately by Cummins.

\*\*The Allison automatic transmission is warranted separately by Allison Transmission.

<sup>†</sup>After 3 years, coverage is 50% labor and parts for up to 5 years.

<sup>++</sup>Tows related to emissions issues may be covered for up to 5 years or 160,000 kilometers (whichever comes first).

<sup>+++</sup>Emission components are covered by either Isuzu or Cummins; see your Isuzu dealer for details.

The warranty coverages are determined by the kilometrage of the vehicle and the number of years from the delivery date. The warranty coverages are limited by whichever occurs first. See your authorized Isuzu dealer for warranty details.

# ACCESSORIES

**KEYLESS ENTRY** 

Conveniently locks and unlocks all cab doors at the push of a button. Two transmitters included.

Alarm sounds when the vehicle is placed in

reverse. Audible warning alerts any nearby people that the vehicle is backing up.

**LOW-PRO TIRES** 

Low-pro tires lower the chassis for special applications like rollback bodies. Available only on the Class 6 FTR.

**AIR SUSPENSION** 

This option is popular for customers hauling fragile cargo or who need to lower the chassis height for loading and unloading.

A backup camera is also available with the system. When ordering the audio system, select this upgrade to enhance your driving experience and safety.

### **Other Optional Equipment:**

**ALUMINUM WHEELS** 

Alcoa clean buff aluminum wheels. Available in 4-wheel or 6-wheel configurations.

**SEAT COVERS** 

Designed and tailored for a custom fit, these seat covers help reduce seat wear and tear to protect your investment while enhancing the look and feel of the cabin.

Heated flat and convex mirrors with or without dual remote controls. Heated mirrors prevent fogging and ice collection with a quick push of a cab switch. For added convenience, available remote controls allow the driver to quickly adjust the angle of the mirrors.

**CHROME GRILLE** Chrome-accented grille enhances styling.

**MOBILEYE**<sup>®</sup>

This passive driver-assistance system provides alerts and warnings for enhanced safety. The system incorporates Forward Collision Warning, Pedestrian Collision Warning, Lane Departure Warning, and Headway Monitoring and Warning.

High-visibility orange seatbelts provide quick visual verification that seat belts are being worn to conform with safety regulations. (Driver and right passenger seat only.)

FIRE EXTINGUISHER/TRIANGLE KIT

Meets DOT specifications for Regulation 393.5. Provides additional driver safety. Rear cargo organizer was designed specifically to accommodate the custom engineered box.

#### **TOUCHSCREEN AUDIO SYSTEM**

The Alpine iLX-407 is equipped with a convenient touchscreen display and provides 200 watts of sound. This versatile system works with Apple CarPlay<sup>®</sup> and Android Auto™ which give you access to a number of smartphone apps including navigation. It is also equipped with built-in Bluetooth®, SiriusXM connectivity (antennae and subscription required), an HDMI input, an HD Radio<sup>™</sup> tuner and more. A USB port and AUX input are also included.

- Spare Keys (2 additional keys)
- LED Lighting Package
  - AGM Batteries (825 CCA x 2)
- 102-in. Side Mirror Bracket
- Emergency Engine Shutdown System
- Engine Idle Shutdown (3 or 5 minutes)
- Speed Limiting to 93, 104, 109 or 112 kph

## **RELIABLE. PREDICTABLE.** TRUSTWORTHY.

### **QUALITY PROGRAMS**

Call (866) 441-9659 – 24/7/365 – It is as simple as that when you're in need. Roadside Assistance is standard on all new Isuzu trucks. It covers tows, jump starts, lock outs, and fueling (owner is responsible for cost of fuel). Please see your authorized Isuzu dealer for details.

Preventive maintenance increases your operating efficiency and maximizes your fuel economy. This comprehensive program protects you against increasing labor and parts costs for up to five years. PSMP also guarantees you "Priority" treatment during your service visits and when roadside assistance is needed. And, any unused portion of your PSMP can be rolled into your next purchase, transferred to the truck's next owner, or refunded to you.

Specifically designed replacement parts developed for Isuzu trucks are approved for all warranty repairs and carry a one-year/unlimited-mile warranty. See your Isuzu dealer for warranty details.

Isuzu FleetValue Parts are priced to compete with aftermarket parts-but have been engineered to meet Isuzu's stringent specifications and exacting standards for quality, performance, safety, and reliability. And they carry a one-year, unlimited-mile warranty.
